

Oxygen Forensic® Image Categorization

Available at **no additional** charge in Oxygen Forensic® Detective

Detect, analyze and **categorize** significant images

Can be initiated when **importing** device data or on **already imported** extractions

Automatically detect

PORNOGRAPHY	EXTREMISM	GRAPHIC VIOLENCE	DRUGS	ALCOHOL	WEAPONS
GAMBLING	CHILD ABUSE	DOCUMENTS	CURRENCY	RISQUÉ	IDENTIFICATION DOCUMENTS
VEHICLES	AIRCRAFTS	MAPS	TATTOOS	QR/BARCODES	CHAT

How to

- 1** Set identification thresholds in Options/Advanced analytics menu in Oxygen Forensic® Detective
- 2** Select categories to search during image analysis
- 3** Run Image categorization
- 4** Matching images for each supported category will be tagged and shown in Key Evidence and Files sections
- 5** Review the tagged data and manually exclude any false positives
